Sagar Sunil Dixit

Senior Frontend Engineer | React | Next.js | TypeScript | Design Systems

Goa, India (open to relocation) | Immediate joiner | sagar876@gmail.com | +91 9158912876 | linkedin.com/in/sagar-dixit-2055a7124 | github.com/sagar876

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 9+ years shipping scalable React, Next.js and TypeScript applications across travel, FinTech, ecommerce and SaaS. Owner of frontend architecture for global airline platforms at AirFi, creator of a company-wide component library at Fabric, and cut a legacy portal's load time from ~7–8s to 2–3s. Strong in real-time UIs, design systems, performance tuning, AI-powered features and growing engineers.

SKILLS

- **Frontend:** React (Hooks, RSC), Next.js (App Router, SSR/SSG/ISR), TypeScript, JavaScript (ES6+), HTML5, CSS3
- **State & Data:** Redux Toolkit, Zustand, TanStack Query, REST, GraphQL, WebSockets, PWA/Offline Sync
- **Architecture:** Frontend Architecture, Design Systems, Monorepos (Turborepo/Nx), Micro-frontends (Module Federation), Migration Strategy
- **Performance:** Core Web Vitals (LCP, INP, CLS), Code Splitting, Lazy Loading, Bundle Analysis, Caching, Lighthouse
- **Accessibility:** WCAG 2.2 AA, WAI-ARIA, Semantic HTML, Keyboard Navigation, Screen Reader Testing, axe-core
- **Observability:** Sentry, Datadog RUM, OpenTelemetry, Error Tracking, Web Vitals Monitoring, Mixpanel, Google Analytics
- **Security & Platform:** RBAC, OAuth 2.0/JWT, CSP & XSS Prevention, Feature Flags, i18n
- **UI & Design Systems:** Storybook, Design Tokens, Tailwind CSS, Radix UI, shadcn/ui, Styled Components, Material UI, Figma
- **Testing & CI/CD:** Jest, Vitest, React Testing Library, Playwright, Chromatic, Vite, Webpack, GitLab CI/CD, GitHub Actions
- **AI:** LLM/GPT Integration, Streaming Conversational UIs, Vercel AI SDK, AI-assisted Development (Cursor, Claude Code)

KEY ENGINEERING HIGHLIGHTS

- **Real-time platform (AirFi):** Live device tracking, flight monitoring and operational messaging shipped on a WebSocket layer used across global airline platforms.
- **AI-powered UI (AirFi):** GPT-integrated Airline Copilot launched, giving passengers itinerary insights through a conversational interface.
- **Performance re-architecture (Fabric):** Admin portal load time cut from ~7–8s to 2–3s and LCP brought under 2.5s via route-based code splitting, lazy loading and removal of render-blocking scripts.

EXPERIENCE

Freelance Engineer | Self-employed, Remote | Feb 2026 – Present

- Pixel-perfect, responsive and WCAG-compliant web applications shipped for freelance clients, accessible by design.
- Faster internal dashboards for a Goa-based client through targeted performance tuning.

Senior Frontend Engineer | AirFi.aero, Bangalore | May 2024 – Jan 2026

- Frontend architecture owned for global airline platforms; code-quality, review and delivery standards set and adopted by the team, with engineers mentored.
- UI routing and data access secured across the platform with a platform-wide RBAC system.
- Accessible, WCAG-compliant airline UIs via semantic HTML, ARIA, keyboard navigation and screen-reader testing.
- Core Web Vitals (LCP, INP) and responsiveness improved on Analytics and Admin Dashboards through batched API requests, advanced filtering and real-time data pipelines.
- Type safety and maintainability raised by moving applications to Next.js, TypeScript and Tailwind CSS.

Senior Software Engineer (SDE-2) | Fabric.inc, Bangalore | May 2021 – Nov 2023

- UI Library 2.0 shipped in React and TypeScript, giving every product one unified, reusable design system.
- Engineering team taken from technical design and scoping through to delivery, aligned with product stakeholders.
- Consistent cross-team delivery and prompt resolution of customer issues.

Earlier Experience

- **Senior Software Engineer, Spacejoy, Bangalore (Aug 2020 – Apr 2021):** Style-collision bugs eliminated and CSS bundle size reduced by moving global CSS to component-scoped styled-components.
- **Software Engineer, Happay, Bangalore (May 2019 – Aug 2020):** Full-codebase React 15 to 16 upgrade completed in one week with zero production regressions; core dashboards loading in 2–3s.
- **Frontend Engineer, Ninestack, Goa (May 2016 – Apr 2019):** Company's most profitable CMS platform, adopted by 50+ clients within 4 months; 15+ responsive websites shipped; 2 interns mentored.

EDUCATION

B.E., Goa Engineering College, 2015 | Certification: JavaScript Algorithms & Data Structures, freeCodeCamp

AWARDS

Employee of the Year, Employee of the Month, Emerging Leader of the Year — Ninestack (2017–2018)
